

Open House Functional Planning Study, Highway 15

Strathcona County, at the request of Alberta Transportation, is undertaking a functional planning study for the upgrading of the section of Highway 15 between Range Road 220 and Highway 830 North. The study aims to determine the medium and long-term needs of the highway.

As part of this study, the consultant CIMA+ has conducted a series of open houses. The upcoming open house will be the final opportunity for public involvement in this study. The purpose of this last open house is to present the recommendations regarding future roadway upgrades in the study area and to receive public input.

Attend an Open House

Wednesday, September 26, 2012

Good Hope Community Hall

21076 Twp. Rd. 542

4 p.m. to 8 p.m.

Refreshments will be served.

Public input from the open house will be used to assist the consultant in developing the Functional Plan.
