

September 14, 2012

Dear Resident,

Further to our previous letters, Strathcona County has engaged CIMA+ to conduct a Functional Planning Study for Highway 15 between Range Road 220 and Highway 830 North. A Functional Planning Study, which is required by Alberta Transportation, determines the “medium and long-term needs” of the highway. It also studies what effects these “needs” may have on the surrounding landowners and community.

This is why we are contacting you! You and your neighbours are invited to an open house to learn more about the Functional Planning Study.

Wednesday, September 26, 2012
Good Hope Community Hall
21076 Twp. Rd. 542
4 p.m. to 8 p.m.
Refreshments will be served.

This is the final open house for the project. At this open house information will be provided regarding the recommendations for future roadway improvements along the Highway 15 corridor. This includes twinning options and intersection modifications within the study area. Your feedback at this stage is essential in finalizing the recommendations and will contribute to the overall success of the project.

If you have any questions or comments please visit the County’s website at www.strathcona.ca/Highway15FPS or contact the project leads.
