

# Our Registration

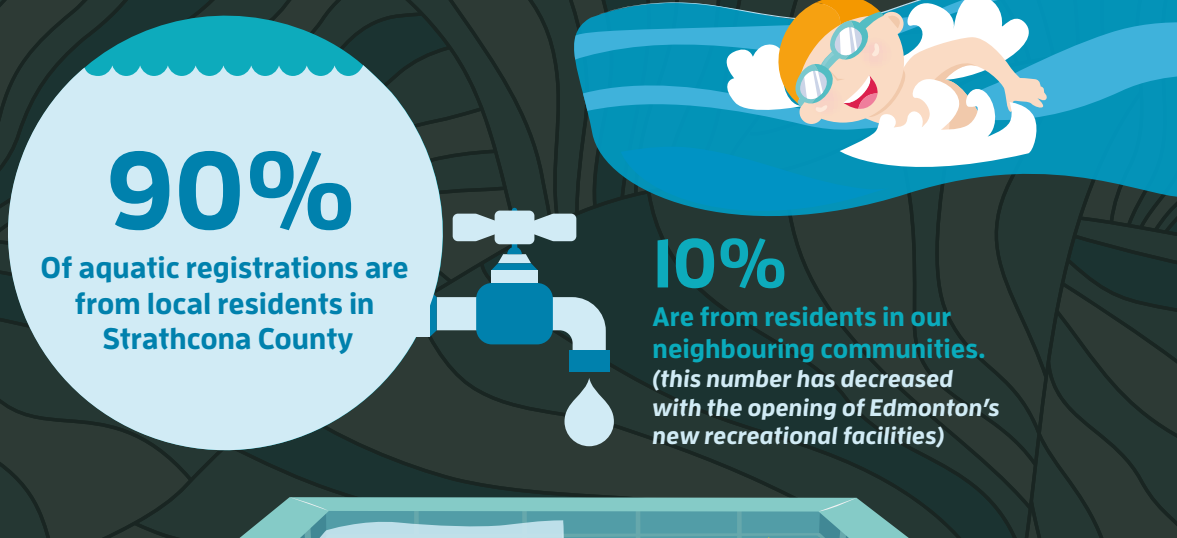

## Did you know:

We have one of the highest online user rates across the region, allowing many registrants access to click-it at the same time.

The registration system we use, which is called CLASS, is also used by most municipalities across Canada. An evaluation process is currently underway to implement a new and improved system within the next two years.

# Our Neighbours

Neighbouring communities report somewhat higher numbers, with approximately 73% of their registrations coming from local residents and 27% from other communities, including Strathcona County. Many of their "learn-to-swim" programs are filled at the same speed as Strathcona County.

## Why do we cross borders?

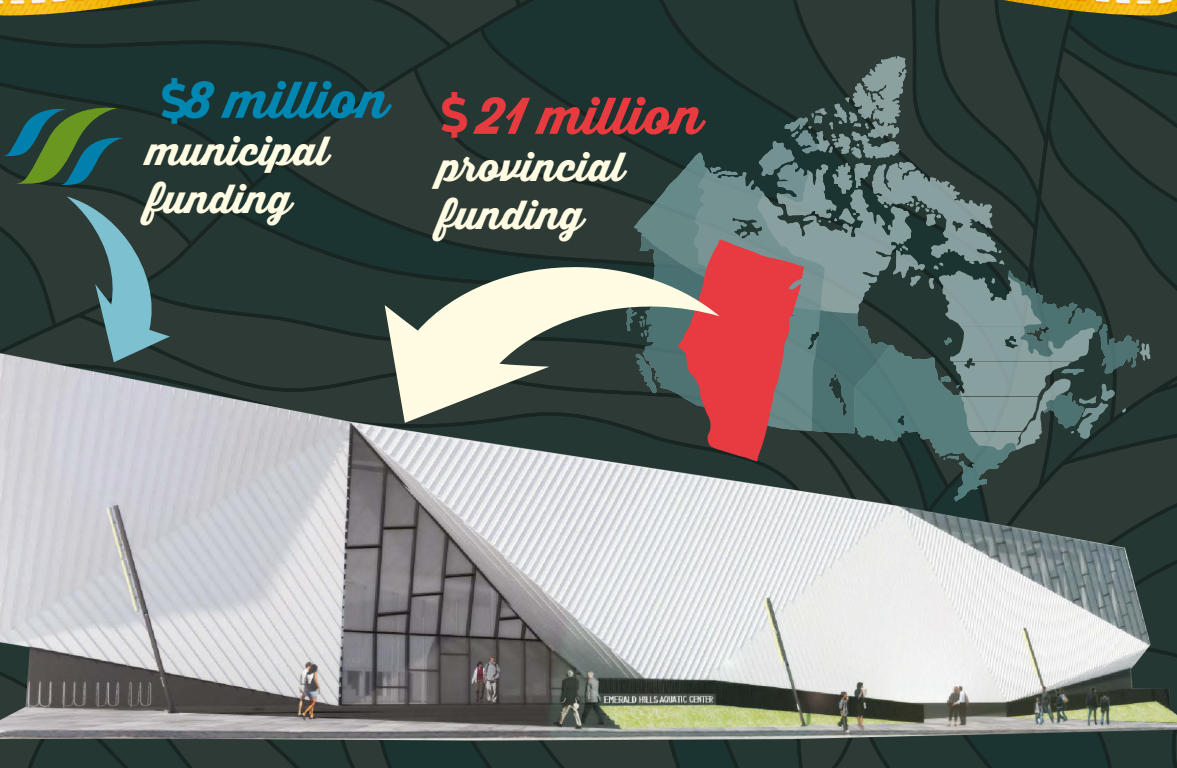

**Amenities**  
Water slides, temperature, steamrooms, diving boards, kid's pools & lane pools are some examples of the variety of features found across our facilities.

**Choice**  
Many residents have a preference for certain instructors, swim class types, specialty programming and program availability. Often, people are willing to drive farther distances to facilities that better accommodate their personal needs.

**Flexibility**  
Each facility schedules swimming lessons differently. By checking out lessons at multiple facilities, parents are sometimes able to find swimming lessons that better suit their unique schedules.

**Location**  
Proximity to home, work, and family can all factor in when choosing which facility works best for you.

# Our Future

## Emerald Hills Aquatic Centre (OPENING FALL 2016)

- Lap Swim Pool**  
6 lanes, 25 meter lane pool
- Flexible Depth**  
4 lanes, 25 meter adjustable depth pool
- Children's Pool**  
Shallow-water pool designed for teaching purposes
- Whirlpool & Steamroom**  
Adult-friendly spaces for relaxation & therapeutic benefits.
- Family Change Rooms**  
Large, handicap-accessible family change rooms
