

Bremner

AREA PROJECT

NEWSLETTER #4 FEBRUARY 2019

STRATHCONA
COUNTY

We Want Your Input!

The Bremner Area Project has three phases, and we are currently in the third and final phase. An open house will take place at the location, date, and time identified below. The open house will provide information on the third draft of the Bremner and LEA Area Concept Plan. We look forward to seeing you there!

February 21: 6:30 p.m. - 8:30p.m.
Location: Festival Place
Address: 100 Festival Way Sherwood Park

If you cannot attend the open house, you can still provide your input through the online survey, available February 21 - March 7, 2019.

The third draft of the Bremner and LEA Area Concept Plan and technical documents will be available on our website for review starting February 12, 2019.

Feedback received from the open house and online survey will be posted online in an engagement summary.

Next Steps

On February 12th, the Strathcona County Priorities Committee will be given an overview of how the financial model functions for the Financial Viability Analysis, and provided scenarios to evaluate financial variables.

We are still accepting comments from the public, as well as internal and external reviewers for draft 3 of the Area Concept Plan and technical documents, and this process must be completed prior to finalizing the associated costs within the financial model. The Financial Viability Analysis for Bremner will be finalized and available on our website for review in April 2019, prior to the Public Hearing and first reading for the Bremner and LEA Area Concept Plan.

Did You Know?

1. What is All-Season Design?

All-season design incorporates year round accessibility to encourage outdoor activities that are safe for pedestrians.

2. What is Pedestrian-Oriented Design?

Pedestrian-oriented design places buildings, and uses architecture and amenity areas to enhance people's experience of the street on foot in a safe environment.
