

Large Scale Solar Collector Systems

Solar collector major

- When no Alberta Utilities Commission (AUC) approval required
- Used onsite for sole consumption by the landowner or occupant
- For agriculture, commercial and industrial landowners
- Discretionary use in appropriate zoning districts
- Can cover a larger land area than small scale; can be located in many areas, such as parking lots or unoccupied portions of commercial or industrial sites
- Requires a development permit

Solar collector distribution

- Principle use of a property
- Current opportunity through the Alberta Utilities Commission
- Often referred to as 'solar farms'
- Regulated by the Alberta Utilities Commission
- To address land use items not in an Alberta Utilities Commission approval
- May require a development permit
