Notice of Construction at Range Road 232 Trail Paving

Dear Resident / Business Owner,

Strathcona County will be moving forward with the paving of the existing gravel trail on Range Road 232. This is a continuation of last year's Range Road 232 trail paving. The scope of work includes paving the remaining sections of gravel trail between Township Road 534 and Township Road 540. A concrete pad, a bench, and a garbage receptacle will be installed at existing rest stops.

The Contractor for this work is Answer Asphalt & General Contracting Ltd. The work is expected to begin mid-August and be completed by end of September, pending impacts from weather and unforeseen issues.

What to expect

There will be trail closures while construction takes place along this trail and traffic impacts on Range Road 232 as workers will be working on the shoulder. To ensure the safety of workers, pedestrians and other drivers, please respect the "Posted Speed Limit" signs and barricades, and drive through all work zones with caution.

Project updates and further information can be found on the project website at: www.strathcona.ca/regionaltrail.

Comments and concerns may be directed to:

Strathcona County contact:
